Program Courses

Enroll in two courses (6 units) in digital communication, delivered and supervised by experienced faculty members from SDSU Electrical & Computer Engineering Department

- **Course One** - a digital communication course recommended by SDSU faculty
- **Course Two** - special study topic focused on the Qualcomm Associate-Level 5G Certification exam

Program Highlights

- ✓ **Industry Certification** issued by Qualcomm upon passing the certification exam
- ✓ **Cutting-edge Education** in 5G digital communication technology
- ✓ **Enhance Career Readiness** by learning the latest from the industry
- ✓ **Experience Personalized In-Person Instruction** from SDSU professors
- ✓ **Student Services and Support** including immigration, academic advising, and student activities through SDSU Global Campus
- ✓ **Earn SDSU credits and official transcripts** upon completion of the program

With the SDSU experience and an Associate-Level 5G Certification from Qualcomm on your résumé, you too can harness the power of 5G and turn endless possibilities into realities without limit.
